For the Intensive Fitness program, the exam is given in two parts: a written exam that includes multiple-choice and essay questions and a practical exam. It is recommended that the written exam be taken before the practical, but in either case, both sections of the exam must be taken within a week of each other and within six (6) months from the last day of training.

For all Rehab program students, there is only a practical exam.

Exam fees are non-refundable. If the student fails to pass either the written or practical exam, an additional exam fee will be charged at the time of reexamination.

***All observation, practice teaching, and physical review hours are mandatory and documentation is submitted when you take your exam.***
